Activity/ Situation	FULL OPENING OF SCHOOL DURING COVID-19 PANDEMIC FROM 8 th MARCH						
Location		New Marske Primary School					
Persons at Risk	Pupils ⊠	Emp	oloyees⊠	Visitor	s 🛛	Contrac	tors 🗵
HAZARD(S)	** Contact Between Individuals Not Minimised and Social Distancing Measures Not Followed ** Social Distancing Measures Not Followed During Travel to and from School ** Inadequate Cleaning/Sanitising ** Shared Resources ** Spread of Coronavirus to Staff, Pupils and Families, Visitors and Contractors ** Site User Becoming Unwell ** Site User Developing Symptoms ** Inadequate Hand Washing/Personal Hygiene ** Inadequate Personal Protection & PPE ** Visitors, Contractors & Spread of Coronavirus ** Inadequate Ventilation ** Arrangements for Boarding Schools During Pandemic						
	EASURES If and adapt this generic risk g and amending others whe			MATION n needs by select			
	e below risks and potentia here is no adverse impact						
From 8 March,	all pupils should at		nool. Secor 8 March	ndary pupils	will be	offered te	esting
Contact Between	Individuals Not Mir	nimised a	and Social	Distancing	Measure	s Not Fo	llowed
the risk of transmis	are in place which resion by limiting the rein contact with each ne group	number	Details;- Classes w class bubb adhering to same entre playtime a dinnertime	oles, o the ance, exit, nd	⊠		
each group, and ar	a record of pupils an ny close contact that ildren and staff in dif	takes	This shoul proportion recording Schools do to ask pup record even they have	d be a ate process. o not need alls to eryone spent time day or ask ep ecords in is overly	×		

Distinct groups or 'bubbles' that do not mix are maintained which makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate and to keep that number as small as possible		×	
Primary schools may be able to implement groups that are the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in the group become ill with coronavirus (COVID-19).	Circumstances need to be assessed and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, you can look to implement year group sized 'bubbles'	×	
Whatever the size of the group, they are kept apart from other groups and older children are encouraged to keep their distance within their groups	Social distancing guidelines reminded to staff during 2 nd March team meeting and to chn during Zoom assemblies 22/02 and 5/23	⊠	
Schools with the capability to do it should take steps to limit interaction, and the sharing of rooms and social spaces between groups as much as possible		×	
It is recognised that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group		×	
Schools keep children in their class groups for the majority of the classroom time, but also allow mixing into wider groups for specialist teaching, wraparound care and transport	Classes will stick to the playtime and dinner time timings.	\boxtimes	
Siblings may be in different groups		\boxtimes	
Teachers and other staff operate across different classes and year groups in order to facilitate the delivery of the school timetable	SLT to review this on the 1/03, looking at limiting interaction as much as possible.	×	
Where staff need to move between classes and year groups, they should keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults		×	
The number of interactions or changes are minimised wherever possible		\boxtimes	
Where possible adults maintain a 2 metre distance from each other, and from children	Regular reminders in staff briefing and team meetings	×	
Adults avoid close face to face contact and limit time spent within 1 metre of anyone	- direct close contacts - face to face contact with an infected individual	×	

	for any length of		
	time, within 1 metre,		
	including being		
	coughed on, a face		
	to face conversation,		
	or unprotected		
	physical contact		
	(skin-to-skin)

Unnecessary furniture has been moved out of	Friday 05/03 PM	⋈	
classrooms to make more space	devoted to rearranging classes	\boxtimes	Ш
Large gatherings such as assemblies or			
collective worship with more than one group do	Zoom assemblies	\boxtimes	
not take place	when needed		
The timetable and selection of classroom or	Avoid creating busy		
other learning environment has been used to	corridors, entrances	\boxtimes	
keep groups apart and reduce movement	and exits		
around the school or building	510. 57.1120		
Break times are staggered so that all pupils are		\boxtimes	
not moving around the school at the same time			
Lunch breaks are staggered	Stoffroom and ID's		
Numbers of staff using Staff Room are limited	Staffroom and JD's old room to be used		
or the use of Staff Room is staggered to	for lunch. Staff will	_	
ensure that staff maintain 2 metres distance	be reminded during	\boxtimes	
from each other	briefings and team		
	meetings.		
	g = .		

Staff meetings take place remotely where possible. Where this is not possible staff meetings take place in a large well ventilated room ensuring 2 metres social distancing at all times	Teams meeting predominantly, but occasional meetings will be held in the hall when needed.	×	
Consideration given to staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school	Staggered start and finish times should not reduce the amount of overall teaching time	×	
Parents' drop-off and pick-up protocols planned to minimise adult to adult contact	CYPS Bulletin	\boxtimes	
All parents/carers entering the school premises (and in other congested areas around school premises) wear a face covering in addition to social distancing	This an extra safeguard to reduce the transmission of the virus. Please note that this does not apply to those who are medically exempt	×	
Ensure that you inform those travelling by car that they should wait in their car until the specific drop off time	This will reduce the amount of people assembling in and around the school grounds and will help with social distancing	⊠	
Ensure that you inform parents to maintain social distancing from others when dropping off and collecting pupils from school	Letter sent to parents on the 25 th Feb, with a subsequent letter planned for the w.c. 01/03	×	
Parents and pupils are told their allocated drop off and collection times and the process for doing so, including protocols for minimising adult to adult contact (for example, which entrance to use, only one adult per family should enter school grounds to drop off or collect)	Letter sent to parents on the 25 th Feb, with a subsequent letter planned for the w.c. 01/03	×	
It is made clear to parents that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-arranged appointment, which should be conducted safely)	Letter sent to parents on the 25 th Feb, with a subsequent letter planned for the w.c. 01/03	×	
Educational Visits must not take place at this time		\boxtimes	
From 8 March, school will work to resume all before and after-school educational activities and wraparound childcare for pupils, where this provision is necessary to support parents to work, attend education and access medical care, and is as part of pupil's wider education and training	Breakfast club Zumba for reception Cricket to start after Easter.	×	

You should advise parents that where they are accessing this provision for their children, that they must only be using this, where: • the provision is being offered as part of the school's educational activities (including catchup provision) • the provision is as part of their child's efforts to obtain a regulated qualification or meet the entry requirements of an education institution • the use of the provision is reasonably necessary to support them to work, seek work, undertake education or training, attend a medical appointment or address a medical need or attend a support group		\boxtimes		
School works closely with any external wraparound providers which their pupils may use, to ensure as far as possible, children can be kept in a group with other children from the same bubble they are in during the school day	Cheeky Monkeys and child minders	×		
Where parents are using external childcare providers or out of school extra-curricular activities for their children, you should also: • advise them to limit their use of multiple out-of-school settings providers, and to only use one out-of-school setting in addition to school as far as possible. • encourage them to check providers have put in place their own protective measures • send them the link to the guidance for parents and carers		\boxtimes		
Social Distancing Measures Not Followed Du	uring Travel to and fro	m Schoo	I	
Parents and pupils are encouraged to walk or cycle to their education setting where possible		\boxtimes		
Schools, parents and pupils following the government guidance on how to travel safely, when planning their travel on public transport	Safer travel guidance for passengers	X		
Inadequate Cleaning/Sanitising				
A cleaning schedule that ensures cleaning is generally enhanced and includes more frequent cleaning of rooms / shared areas that are used by different groups is in place	Staff reminded about cleaning during staff briefing and team meetings	×		
Frequently touched surfaces, such as toys, books, desks, chairs, doors, sinks, toilets, light switches, bannisters etc. are cleaned more often than normal		\boxtimes		
Electronic entry systems and keypads are regularly sanitised particularly first thing in the morning and where possible after each use	Caretakers routines	×		
Bins for tissues and other rubbish are emptied				
throughout the day	Caretakers routines	\boxtimes		

regularly checked and additional supplies requested as necessary				
Consideration given to how play equipment is used ensuring it is appropriately cleaned between groups of children using it		×		
Outdoor playground equipment should be more frequently cleaned	This would also apply to resources used inside and outside by wraparound care providers	×		
Shared Resources				
For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared	Pupils have own equipment	×		
Classroom based resources, such as books and games, can be used and shared within the bubble; these are cleaned regularly, along with all frequently touched surfaces		×		
Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles		×		
Pupils should limit the amount of equipment they bring into school each day, including essentials such as lunch boxes, hats, coats, books, stationery, bags and mobile phones (depending on school policy)	Pupils reminded about this in Zoom on Friday 05/03	×		
Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to pupil education and development. Rules on hand cleaning, cleaning of the resources and rotation apply to these resources	It is very difficult to adequately clean exercise books so the school may need to isolate the books for 48 hours before marking	×		
Devices/ laptops/tablets etc. that are brought from home to school and back again are cleaned at the start and end of the day		×		
Spread of Coronavirus to Staff, Pupils and F	amilies, Visitors and C	Contracto	ors	
Contact with individuals who are required to self-isolate is minimised by ensuring they do not attend the school	Letter to parents on the 25 th February and the w.c. the 01/03	×		
Anybody contacted by NHS Test and Trace or local health protection team and told to self-isolate because they have been a close contact of a positive case, has a legal obligation to do so	Letter to parents on the 25 th February and the w.c. the 01/03	×		

Pupils, staff and other adults must not come into the school if: • they have one or more coronavirus (COVID-19) symptoms • a member of their household (including someone in their support bubble or childcare bubble if they have one) has coronavirus (COVID-19) symptoms • they are required to guarantine having recently visited countries outside the Common Travel Area • they have had a positive test		\boxtimes	
School makes everyone onsite or visiting aware that they must immediately cease to attend and not attend for at least 10 days from the day after: • the start of their symptoms • the test date if they did not have any symptoms but have had a positive test (whether this was a Lateral Flow Device (LFD) or Polymerase Chain Reaction (PCR) test)		×	
The school recognises that if they have two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, they may have an outbreak and will call the dedicated advice service who will escalate the issue to your local health protection team where necessary and advise if any additional action is required	You can reach them by calling the DfE Helpline on 0800 046 8687 and selecting option 1 for advice on the action to take in response to a positive case	×	
Where a pupil routinely attends more than one setting on a part time basis, for example because they are dual registered at a mainstream school and a special setting, the settings should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the pupil. Pupils should be able to continue attending both settings.	While some adjustment to arrangements may be required, pupils in this situation should not be isolated as a solution to the risk of greater contact except when required by specific public health advice	\boxtimes	
Where individuals are self-isolating and are within the definition of vulnerable, school has put systems in place to keep in contact with them, offer pastoral support, and check they are able to access education support	Parents asked to contact school if their child falls into this category in letter on w.c. 01/03	\boxtimes	
The advice for pupils who have been confirmed as clinically extremely vulnerable is to shield and stay at home as much as possible until further notice. They are advised not to attend school while shielding advice applies nationally	You will be able to request from parents a copy of the shielding letter sent to CEV children, to confirm that they are advised not to attend school or other educational settings	×	

	whilst shielding		
	guidance is in place		
CEV staff are advised not to attend the workplace	Staff who are CEV will previously have received a letter from the NHS or their GP telling them this	×	
Current DHSC guidance, informed by PHE, currently advises that CEV individuals should continue to shield even after they have been vaccinated	This may change as we get further data on the effects of vaccination	×	
Those living with someone who is CEV can still attend work where home-working is not possible and should ensure they maintain good prevention practice in the workplace and home settings		\boxtimes	
CV staff can continue to attend school. While in school they must follow the system of controls to minimise the risks of transmission		⊠	
Staff who live with those who are CV can attend the workplace but should ensure they maintain good prevention practice in the workplace and at home		×	
Pregnant women are in the 'clinically vulnerable' category	School must complete the New and Expectant Mothers risk assessment as well as the Covid Individual risk assessment. Both the New and Expectant Mothers and the Individual Risk Assessment must be reviewed prior to 28 weeks when risk factors increase. Individual Risk Assessments will need to be subject to regular review RCOG Q&A covid19 virus infection and pregnancy	×	
Whilst pregnant women are at no greater risks of catching covid, there is evidence that those is later pregnancy are at greater risk of severe illness if they contract the virus and may give birth pre-term. Therefore, from now on pregnant employees in their 3 rd trimester should be directed to work from home if they are currently attending a workplace. This should happen as soon as possible, and so managers are required to send home any	As per NYCC recommendation	×	

pregnant employees who have reached the start of their 28 th week of pregnancy			
Pregnant workers in their 3 rd trimester are now to be treated in the same way as CEV staff		\boxtimes	
Volunteers may be used to support the work of the school, as would usually be the case	Mixing of volunteers across groups should be kept to a minimum, and they should remain 2 metres from pupils and staff where possible	×	
Specialists, therapists, clinicians and other support staff for pupils with SEND provide interventions as usual		\boxtimes	
Where it is necessary to use supply staff and peripatetic teachers, those individuals will be expected to comply with the school's arrangements for managing and minimising risk, including taking particular care to minimise contact and maintain as much distance as possible from other staff	To minimise the numbers of temporary staff entering the school premises, and secure best value, schools may wish to use longer assignments with supply teachers and agree a minimum number of hours across the academic year		
Specialists, therapists, clinicians, support staff for pupils with SEND, supply teachers, peripatetic teachers or other temporary staff, can move between settings	They should ensure they minimise contact and maintain as much distance as possible from other staff	×	
Site User Becoming Unwell			
If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow the guidance which sets out that they must self-isolate for at least 10 days and should arrange to have a test to see if they have coronavirus (COVID-19)	Other members of their household (including any siblings) should self-isolate. Their isolation period includes the day symptoms started for the first person in their household, or the day their test was taken if they did not have symptoms, whether this was a Lateral Flow Device (LFD) or Polymerase Chain Reaction (PCR) test), and the next 10 full days. If a		

	member of the household starts to display symptoms while self-isolating they will need to restart the 10 day isolation period and book a test		
If a pupil is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age of the Pupils and with appropriate adult supervision if required. A window should be opened for fresh air ventilation if it is safe to do so	All isolated pupils to go to the meeting room	⊠	
If the pupil needs to go to the toilet while waiting to be collected, they should use a separate toilet if possible. The toilet should be cleaned and disinfected using standard cleaning products before being used by anyone else	Toilet to be used near the HT's office, with a clean taking place afterwards.	⊠	
PPE should be worn by staff caring for the pupil while they await collection if a distance of 2 metres cannot be maintained (such as for a very young pupil or a pupil with complex needs)	See Inadequate Personal Protection & PPE section of this risk assessment	×	
In non-residential schools, if a pupil displays coronavirus (COVID-19) symptoms, or has a positive test, while at their school they should avoid using public transport and, wherever possible, be collected by a member of their family or household		⊠	
In exceptional circumstances, if parents or carers cannot arrange to have their child collected, if age-appropriate and safe to do so the child should walk, cycle or scoot home following a positive test result	If this is not possible, alternative arrangements may need to be organised by the school. The local authority may be able to help source a suitable vehicle which would provide appropriate protection for the driver, who must be made aware that the individual has tested positive or is displaying symptoms		
In an emergency, call 999 if the pupil is seriously ill or injured or their life is at risk.	Anyone with coronavirus (COVID-19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital	×	

Any member of staff who has provided close contact care to someone with symptoms, even while wearing PPE, and all other members of staff or pupils who have been in close contact with that person with symptoms, even if wearing a face covering, do not need to go home to self-isolate unless: • the symptomatic person subsequently tests positive • they develop symptoms themselves (in which case, they should arrange to have a test) • they are requested to do so by NHS Test and Trace or the PHE advice service (or PHE local health protection team if escalated) • they have tested positive from an LFD test as part of a community or worker programme			
Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell		\boxtimes	
The area around the person with symptoms must be cleaned with normal household disinfectant after they have left to reduce the risk of passing the infection on to other people	COVID-19: cleaning of non-healthcare settings guidance	×	
Site User Developing Symptoms			
Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to book a test if they are displaying symptoms. The main symptoms are a high temperature, a new continuous cough and/or a loss or change to your sense of smell or taste. Staff and pupils must not come into the school if they have symptoms, and must be sent home to self-isolate if they develop them in school. All children can be tested if they have symptoms, including children under 5, but children aged 11 and under will need to be helped by their parents or carers if using a home testing kit	The advice service (or PHE local health protection team if escalated) will provide definitive advice on who must be sent home. A template letter will be provided to schools, on the advice of the health protection team, to send to parents and staff if needed	⊠	
School have received an initial supply of 10 home test kits and information about how to order to replenish this supply when they are running out	School have a number of postal tests, as well as LFTs.	×	
School determines how to prioritise the distribution of their test kits in order to minimise the impact of the virus on the education of their pupils.	The test kits sent to schools are provided to be used in the exceptional circumstance that an individual becomes symptomatic and schools believe they may have barriers to	×	

	accessing testing elsewhere. These kits can be given directly to staff or parents and carers collecting a child who has developed symptoms at school. In particular, these tests kits will also help ensure that symptomatic staff can also get a test and if they test negative, can return to work as soon as they no longer have symptoms of coronavirus (COVID-		
	19). Further information is provided in our guidance Coronavirus (COVID-19): test kits for schools and FE providers.		
The asymptomatic testing programme does not replace the current testing policy for those with symptoms. Anyone with symptoms (even if they recently had a negative LFD test result), should still self-isolate immediately according to government guidelines	Staff reminded about this in staff briefing and team meetings. Further guidance awaited on LFT for families.	×	
Those with symptoms are expected to order a test online or visit a test site to take a labbased polymerase chain reaction (PCR) test to check if they have the virus	Staff reminded about this in staff briefing and team meetings. Further guidance awaited on LFT for families.	×	
Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test & Trace		×	
Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to self-isolate if they have been in close contact with someone who develops coronavirus (COVID-19) symptoms or someone who tests positive for coronavirus (COVID-19)	Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms	×	

-			
Parents and staff are asked to inform the school immediately of the results of a test	Schools must not share the names or details of people with coronavirus (COVID-19) unless essential to protect others. Letter sent to parents on the 25 th Feb – with a further letter going out on the w.c. 01/03	\boxtimes	
If someone with symptoms tests negative for coronavirus (COVID-19), then they need should stay at home until they are recovered as usual from their illness but can safely return thereafter. The only exception to return following a negative test result is where an individual is separately identified as a close contact of a confirmed case, when they will need to self-isolate for 10 days from the date of that contact	Schools should not request evidence of negative test results or other medical evidence before admitting children or welcoming them back after a period of self-isolation	×	
Someone who is self-isolating because they have been in close contact with someone who has tested positive for coronavirus (COVID-19) starts to feel unwell and gets a test for coronavirus themselves, and the test delivers a negative result, they must remain in isolation for the remainder of the 10-day isolation period	This is because they could still develop coronavirus (COVID-19) within the remaining days	×	
If someone with symptoms tests positive, they should follow the 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection' and must continue to self-isolate for at least 10 days from the onset of their symptoms and then return to school only if they do not have symptoms other than cough or loss of sense of smell/taste. This is because a cough or anosmia can last for several weeks once the infection has gone. The 10-day period starts from the day when they first became ill. If they still have a high temperature, they should continue to self-isolate until their temperature returns to normal. Other members of their household should all self-isolate for the full 10 days		×	
Schools send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 10 days since they were last in close contact with that person when they were infectious	Close contact means: - direct close contacts - face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face	×	

	to face conversation, or unprotected physical contact (skin-to-skin) - proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual - travelling in a small vehicle, like a car, with an infected person		
School must take swift action when they become aware that someone who has attended has tested positive for coronavirus and must contact the dedicated advice service introduced by Public Health England (PHE) and delivered by the NHS Business Services Authority	This can be reached by calling the DfE Helpline on 0800 046 8687 and selecting option 1 for advice on the action to take in response to a positive case. Schools will be put through to a team of advisers who will inform them of what action is needed based on the latest public health advice	×	
Public Health England has good evidence that routinely taking the temperature of pupils by the school is not recommended as this is an unreliable method for identifying coronavirus (COVID-19) so this does not take place		×	
Inadequate Hand Washing/Personal Hygiene	•		
Staff/pupils/cleaners/contractors etc. will be reminded to clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating	Ensure that staff have sufficient time to wash their hands regularly, as frequently as pupils	×	
Consideration given to how often pupils and staff will need to wash their hands and incorporated time for this is in timetables or lesson plans	Staff reminded during staff briefings and team meeting s	⊠	
Staff working with pupils who spit uncontrollably may want more opportunities to wash their hands than other staff	No significant risk of this in school	×	
Pupils who use saliva as a sensory stimulant or who struggle with 'catch it, bin it, kill it' may also need more opportunities to wash their hands and this has been considered	No significant risk of this in school	\boxtimes	
Help given to pupils with complex needs to clean their hands properly	No significant risk of this in school	×	

Risk assessments for pupils with complex needs that may struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant, have been updated in order to support these pupils and the staff working with them	A review of pupils at risk during the w.c. 1/03	×	
Hands are washed with liquid soap & water for a minimum of 20 seconds		\boxtimes	
The school has considered whether they have enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly		×	
Alcohol based hand cleansers/gels can only be used if soap and water are not available, but is not a substitute for hand washing. Such gels MUST ONLY BE USED UNDER CLOSE SUPERVISION. In normal circumstances pupils should not be using alcohol based hand cleansers because of the risk of ingestion	Skin friendly cleaning wipes can be used as an alternative	×	
School has embedded hand washing routines into school culture, supported by behaviour expectations to help ensure younger pupils and those with complex needs understand the need to follow them	Staff reminded during staff briefing and team meetings. Pupils reminded about this upon return to school and during head teacher Zoom meetings	×	
The 'catch it, bin it, kill it' approach is very important and is promoted	CATCH IT Germ agreed washy Aveys sarry touch and see the Cardy pear cough or seemen. BIN IT Germ cas have far several focus or stands. Dispose of graze these an ozon as possible. KILL IT Morels con hearlife germs to comp suchar you touch Chean poor Familia. as then anyou sar.	×	
Disposable tissues are available in each room	Wasi	\boxtimes	
for both staff and pupil use Bins (ideally lidded pedal bins) for tissues are available in each room		\boxtimes	
School has embedded the 'catch it, bin it, kill it' approach to ensure younger pupils and those with complex needs get this right, and that all pupils understand that this is now part of how the school operates	The e-bug website contains free resources for schools, including materials to encourage good hand and respiratory hygiene	⊠	
Inadequate Personal Protection & PPE			
Adults (staff and visitors) in Primary schools DO wear face coverings in areas outside of the classroom	Shared with staff during briefing on the 26 th Feb and	×	

	during team meetings.		
Children in Primary schools do not need to wear a face covering	modings.	\boxtimes	
Transparent face coverings can also be worn, but only to assist communication with someone who relies on lip reading, clear sound or facial expression to communicate		×	
Face visors or shields are not routinely worn as an alternative to face coverings	Visors may protect against droplet spread in specific circumstances but are unlikely to be effective in preventing aerosol transmission, and therefore in a school environment are unlikely to offer appropriate protection to the wearer Shared with staff during briefing on the 26th Feb and during team meetings.	×	
Face coverings do not need to be worn by pupils when outdoors on the premises		\boxtimes	
Those who rely on visual signals for communication, or communicate with or provide support to such individuals, are currently exempt from any requirement to wear face coverings in schools or in public places		×	
Pupils are instructed to: • not touch the front of their face covering during use or when removing it • dispose of temporary face coverings in a 'black bag' waste bin (not recycling bin) • place reusable face coverings in a plastic bag they can take home with them • wash their hands again before heading to their classroom		×	
Clear instructions are provided to staff and pupils on how to put on, remove, store and dispose of face coverings, to avoid inadvertently increasing the risks of transmission	Team meeting 02/03	⊠	
Safe wearing of face coverings requires cleaning of hands before and after touching – including to remove or put them on – and the safe storage of them in individual, sealable plastic bags between use	Team meeting 02/03		
Where a face covering becomes damp, it should not be worn and the face covering should be replaced carefully	Staff and pupils may consider bringing a spare face covering	⊠	

			r	
	to wear if their face covering becomes damp during the day Caretaker to assess stock of face masks within school			
Where anybody is struggling to access a face covering, or where they are unable to use their face covering due to having forgotten it or it having become soiled or unsafe, the school has taken steps to have a small contingency supply available to meet such needs		×		
School has a process for when face coverings are worn within the school and how they should be removed	This procedure should be communicated clearly to pupils and staff	⊠		
Adjustments to be made for pupils with SEND who may be distressed if required to remove a face covering against their wishes		⊠		
PPE will need to be worn by a member of staff if a pupil becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the pupil is necessary, then gloves, an apron and a face mask should be worn by the supervising adult. If there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn	safe working in education, childcare and children's social care	×		
PPE for coronavirus (COVID-19) is required when performing aerosol generating procedures (AGPs)		\boxtimes		
When working with children and young people who cough, spit or vomit but do not have coronavirus (COVID-19) symptoms, only any PPE that would be routinely worn, is worn		×		
Visitors, Contractors & Spread of Coronaviru	JS			
All visitors and contractors must make pre- arranged appointments or they will not be allowed on site		⊠		
School ensures site guidance on physical distancing and hygiene is explained to visitors and contractors on or before arrival		⊠		
Where visits can happen outside of school hours, they are arranged as such		\boxtimes		
Contractors to attend by agreement only after school have satisfied themselves that it is necessary for the visit to take place at that time and that all required controls are in place to allow the work to continue safely		×		

Contractors to provide updated risk assessment prior to visit which includes their own controls round infection spread prevention	Times of visits may need to be adapted to take in to account the ability to maintain appropriate social distancing measures and availability of resources to effectively clean following the visits	×	
As normal, school engages with their local immunisation providers to provide immunisation programmes on site, ensuring these are delivered in keeping with the school's control measures	These programmes are essential for children's health and wellbeing	×	
A record is kept of all visitors with sufficient detail to support rapid contact tracing if required by NHS Test and Trace.		\boxtimes	
Inadequate Ventilation			
Occupied spaces must always be well ventilated and a comfortable teaching environment maintained	This can be achieved by a variety of measures including: mechanical ventilation systems - these should be adjusted to increase the ventilation rate wherever possible, and checked to confirm that normal operation meets current guidance (if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply)		
Ventilate spaces with outdoor air	Natural ventilation – if necessary external opening doors may also be used provided this doesn't compromise safeguarding measures	×	
Where possible, occupied room windows should be open		×	

If school needs to use additional heaters they only use sealed, oil filled electric heaters Have you consulted with the people/representations.	at walls etc. Electric fan heaters used sparingly due to increased fire and electrical risk	×		
•	Electric fan heaters used sparingly due to increased fire and	×		
			- 1	
When heating is activated and windows are on trickle vent, consideration is given to employing desk fans to move any stagnant pockets of air	pointed away from people and pointed	×		
Heating should be used as necessary to ensure comfort levels are maintained particularly in occupied spaces		\boxtimes		
Furniture rearranged where possible to avoid direct drafts		\boxtimes		
The school offers flexibility to allow additional, suitable indoor clothing	For more information see <u>School uniform</u>	×		
Consideration given to only opening every other window instead of all windows when the heating is activated	Shared with staff during briefing on the 26 th Feb and during team meetings.	×		
Consideration given to opening high level windows in preference to low level to reduce draughts	Shared with staff during briefing on the 26 th Feb and during team meetings.	×		
In cold weather where the school heating system is activated, windows are open to provide trickle ventilation rather than being fully open	natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation, and opened more fully during breaks to purge the air in the space)	×		
Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and assist with creating a throughput of air	Fire doors must not be propped open unless they have a self-closing hold open device fitted	×		
Switch air handling units with recirculation to 100% outdoor air where this is not possible, systems are operated as normal	Further advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak and CIBSE coronavirus (COVID-19) advice.	×		

What is the leve measures	el of risk for this activity/situation	High ⊠	h M	ed _	Low
